FACULTY

Principal

Ms. Rose Serra

The Principal's job can be demanding as well as lonely. The buck literally stops here! It takes an authoritive figure, who is capable of displaying patience and fairness, mixed with perserverance, to endure at the helm of a school as large as Barringer. Our Principal, Ms. Rose Serra, has devoted many years of her life to the education of our children. She began her career at Barringer as a math teacher. Then she moved up to department chairperson, vice principal and finally principal, while being involved daily in decision making with faculty members, guidance personnel, and outside groups, Ms. Serra has always been approachable by the student body. Whether she was standing at the front door in the morning greeting the students, or talking on the public address system, Ms. Serra made her presence known with a cheerful "Good Morning"!

Vice Principal

Carmen Ruiz

Edward Gadson

Joseph Iannuzzi

Victoria Manfro

As the school year unfolds, a proportional rise occurs in the complexity and variety of administrative responsibilities. Shouldering the additional burdens and assuming an ever increasing role in school administration, are the vice principals. Each one supervises a certain phase of the work, thus dividing the tremendous task and assuring more efficient administration in all areas. The V.P.'s are an essential aid to the principal, assisting her with her many duties as well as fulfilling thier own jobs in the most efficient way possible.

The clerks in the main office have jobs that only highly skilled organizers can handle. Without them Barringer could not function. Their jobs include doing all the correspondence, school records, clerical duties, and of course answering the numerous phone calls that the school receives every day. James Walters, Crisis Intervention Specialist is incharge of disciplinary programs. He maintains law and order which provides an atmosphere conducive for learning.

To assist each student to understand himself and plan for his future are the goals of the Guidance Department. Besides scheduling courses for graduation requirements, counselors see students for help with personal, social, educational, and vocational matters. Scholarship competitions, summer programs such as Upward Bound, E.O.F. programs, and college acceptance in premed or pre-dental, financial assistance programs are all areas the guidance department exposes our students to. Proficiency in the effective use of written and spoken language and the meaningful interpretation of literature are the basic objectives of the English department. Therefore, in the regular course of study the mandatory offerings emphasize the functional use of language and communication skills, writing, and various forms of literature. At the end of the senior year distinguished graduates receive prizes in English and English as a second language. Chairperson: Clara Roth

Is it inches or meters? How do you use a computer? Is there a new math? In answering some of these questions the mathematics department stimulates the students to develop a working knowledge of basic math skills in preparation for employment or daily life. Courses for the exceptional individual are also offered in the math curriculum. In this age of rapidly advancing technology and use of computers, the knowledge of mathematics becomes increasingly significant. Chairman: Vincent Guarino

Why is youth in rebellion? Are the lines between capitalism and communism blurring? What has man achieved in his evolution through the centuries? These are some of the vital issues that our social studies classes consider every day. Through the study of civilization students learn to think, evaluate, determine, interpret, and apply knowledge to the solution of everyday human problems. Course offerings such as law in action, sociology, and psycology prepares students to be active, aware citizens. Chairman: Lou Marolakos

In order to be technologically literate in today's world, the high school graduate must have a basic understanding of science principles. Such topics as energy, environmental concern, communicable diseases and the explosion of new scientific advance make it a necessity for the informed citizen to have a broad scientific background. The science department offers our students a wide selection of both college and non-college level courses. We are the only high school in Newark in which both electricity and electronics are offered in the science department. We strongly feel that science is a discipline which becomes meaningful when it is experienced. Therefore, our entire curriculum is built around the laboratory approach to teaching science. It is my opinion that the real strength of the science department lies in our experienced, caring, and dedicated staff. The science department wishes all of our graduates good luck and success as they enter an exciting new chapter in their lives. The science department presents the following awards to our outstanding seniors :

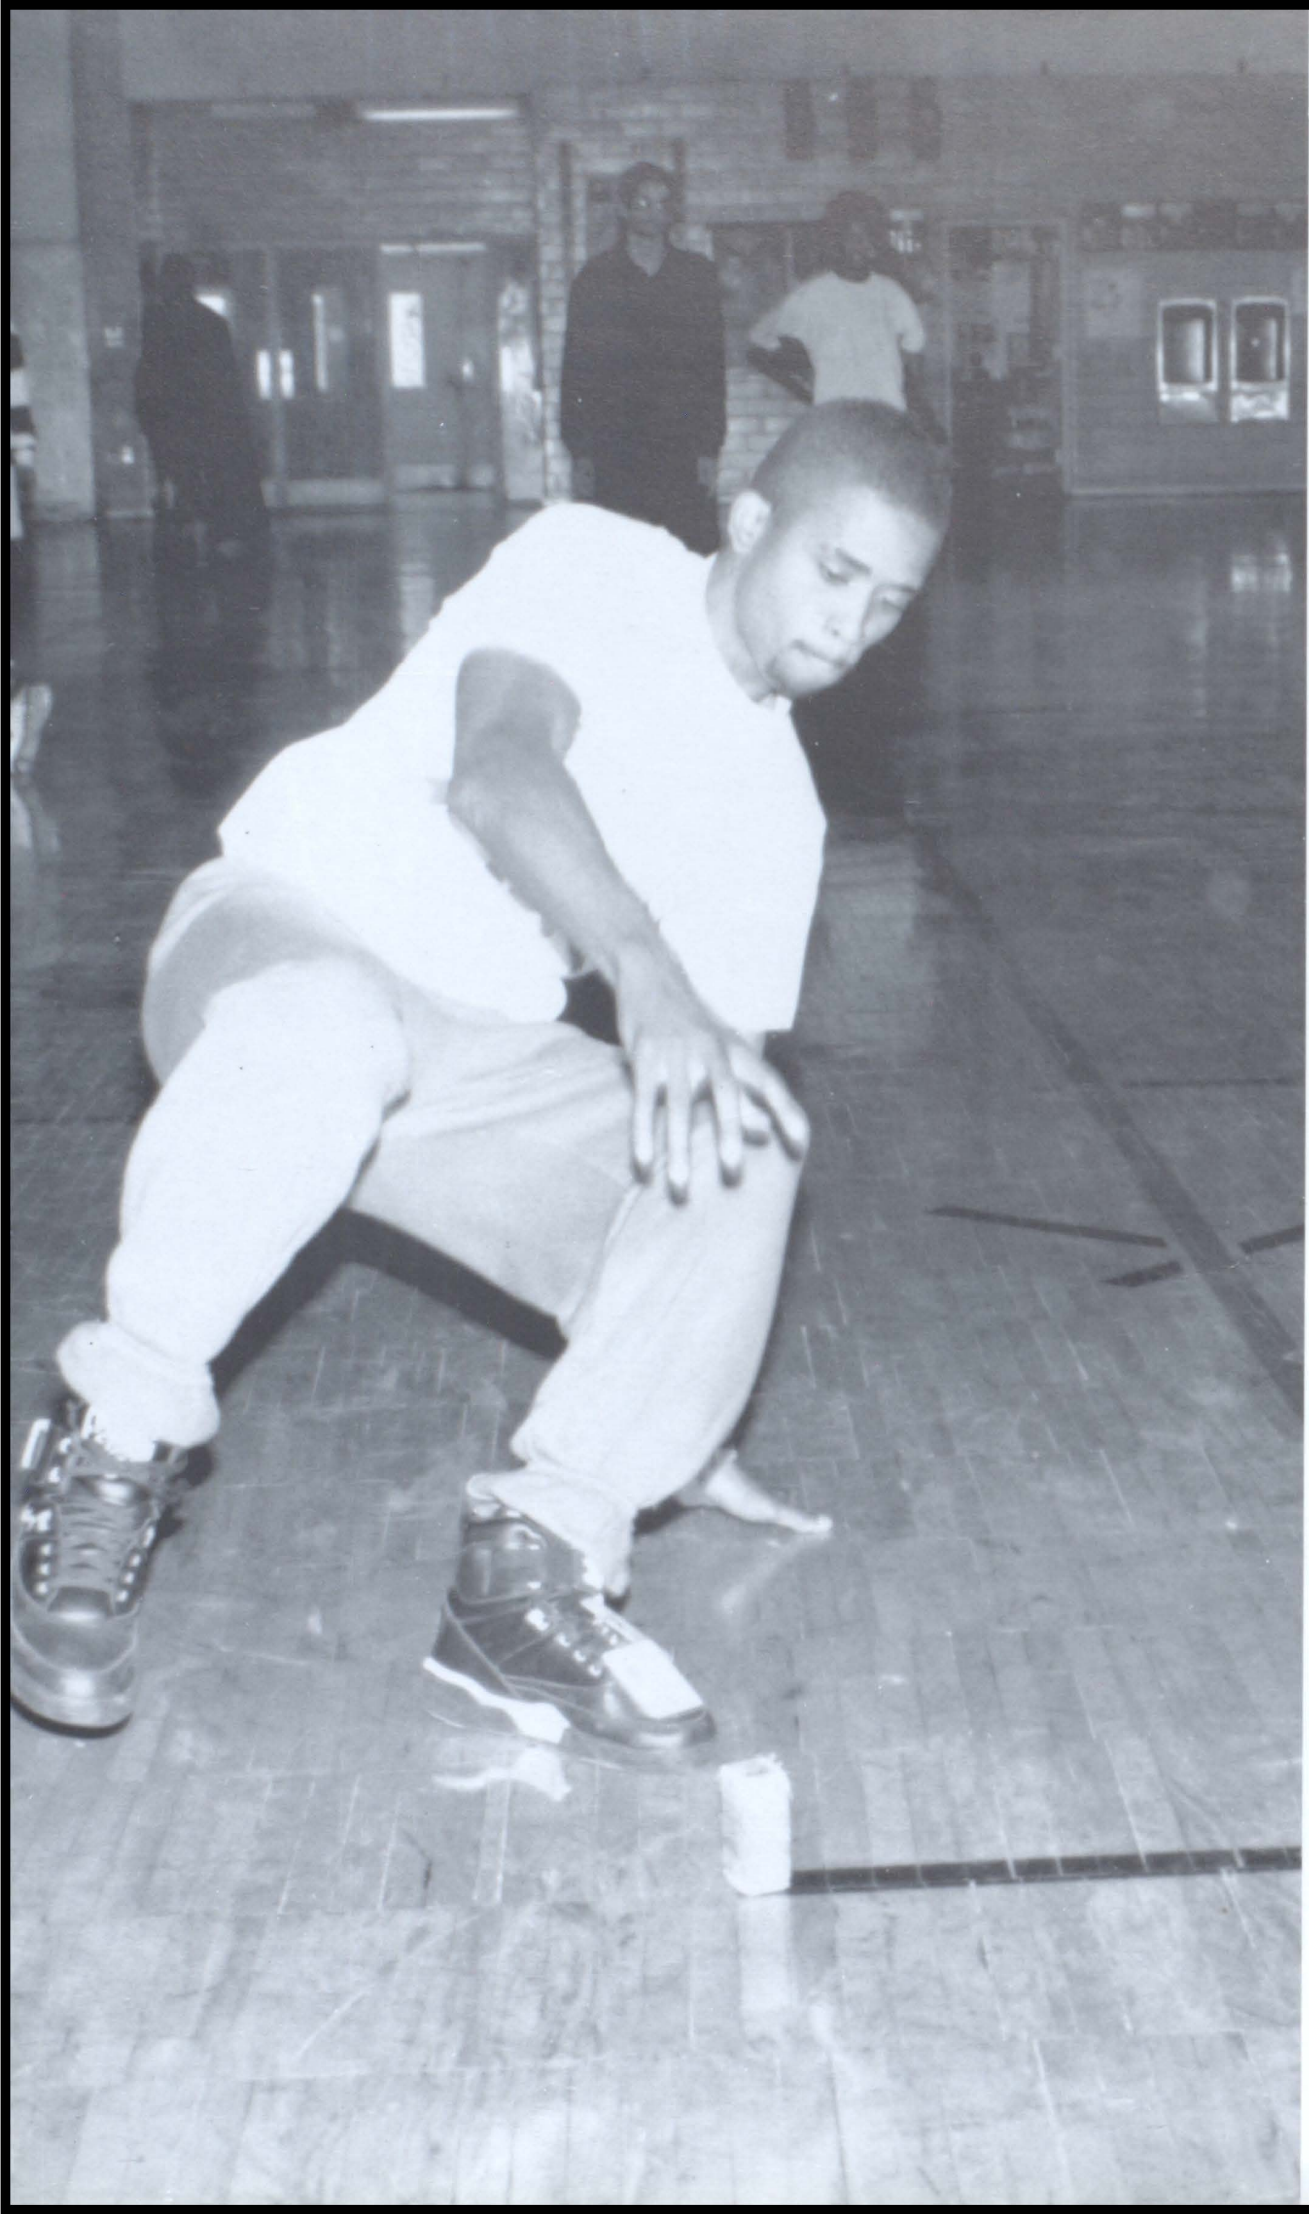

The Otto Melito Award-excellence in biology, chemistry , and physics.
The Renesselaer Medal-excellence in math and science.
The Bausch and Lomb Medal-excellence in science.

Physical fitness seems to be an increasing concern in America today. Our physical education department offers courses and activities that motivate Barringer students to pursue a higher degree of fitness. Through sports such as volleyball, basketball and track, the participants develop their skills and bodies. Skills, techniques and exercise routines are employed to maintain strength, improve coordination and encourage social interaction. The department also offers a variety of health education courses to prepare the students for a stable, rewarding family and community life. Chairman: Frank Verducci

Business education training has resulted in employment for many thousands of Barringer graduates. Students are trained for entry level jobs such as secretaries, bookkeepers, typists, and data entry clerks. Young people also learn about budgets, fill out income tax returns, etc. While the department prepares students to succeed and advance in business, the outstanding students are encouraged to go to college to pursue professional careers in accounting, computers, and the teaching of business education. Ancient as well as modern people have always expressed a desire for a common international language, so that the world could approach unity of understanding. The study of modern foreign languages is vital to communicate in a shrinking world. An asset in many ways: business, industry, commerce, civil service education, law, media, science and many more jobs. At Barringer the foreign language department aids the students in the progressive ability to speak, read, express, and ultimately to comprehend and enjoy a second language. Colleges today are offering career oriented foreign language programs. Anyone with a foreign language major can follow a career as a language specialist in a number of professions. Chairman: vacant

Special education is generally accepted to mean education for exceptional individuals whose educational needs are different in part from those of their peers. Youth in need of special education are not limited to specific categories. Rather they include all those who require instructional adjustment throughout their school career or some significant portion of it. Barringer's special education is built on the concept of understanding differences among the school-age population and meeting individual needs. Chairman: Louis Dultz and Lou Marolakos

The creative approach is the direction the art department follows in relating the subject of Art to the realities of life. Art Foundation, Art Survey, General Art, and Studio Art comprise the courses which are designed to encourage awareness of aesthetic values; to explore various art media and materials; and to develop the creative potential of each individual. Many senior art students graduate from Art schools to become commercial artists, professional photographers or art instructors. Chairman: Emilio Spino

Mr. Snyder and Mr. Molinaro

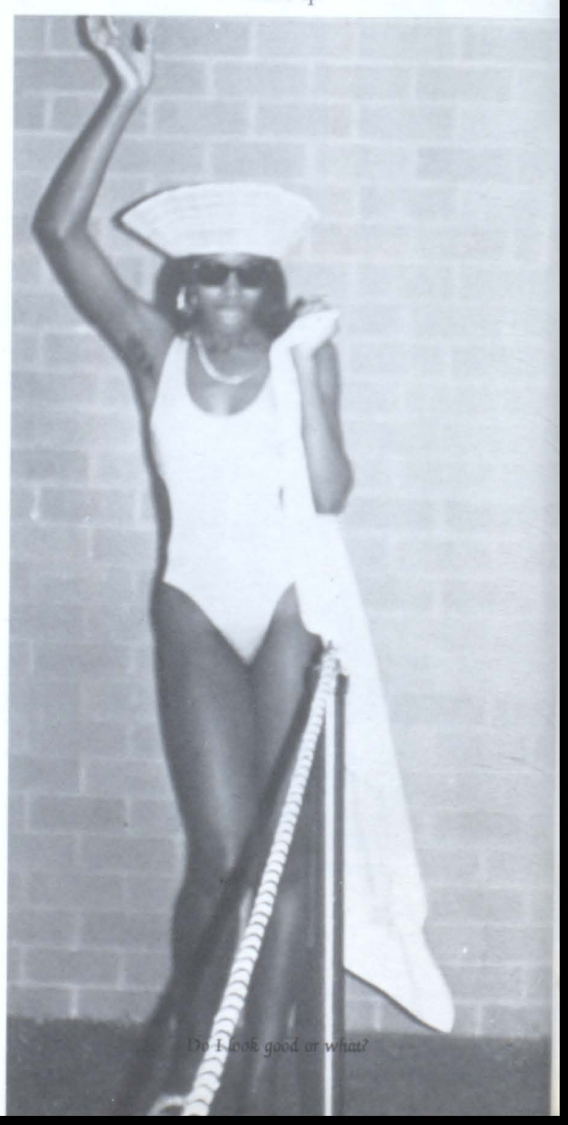

What's up!

Angie, Nick, Jose, Jeany, Marilyn, Eileane

On November 30, 1990, Barringer had its first Senior Splash Party at the Holiday Inn. Students who participated had a good time by playing games, snacking, and listening to music. All the Seniors were united for this special moment. "It was a time they'll never forget".

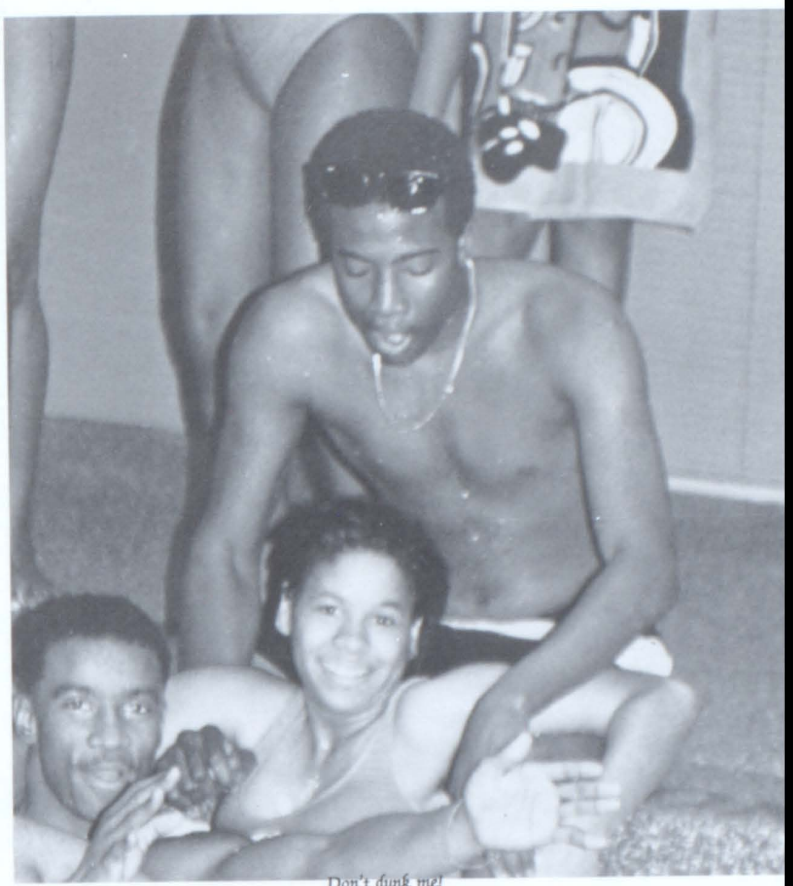

I'm I look good or what?

Out!

Peace to all our friends out there!

Don't dunk me!

Hassana and Deidra, Friends Forever.

What — you beat me across this pool?

To Ebby, Swing it this way!

The Center, which opened in the fall of 1987, accommondates 11 toddlers and 8 infants, all between the ages of 6 months and 4 years of age. Here, teen mothers who are students at Barringer, have the opportunity to continue their education, without having to worry about who will babysit their child.

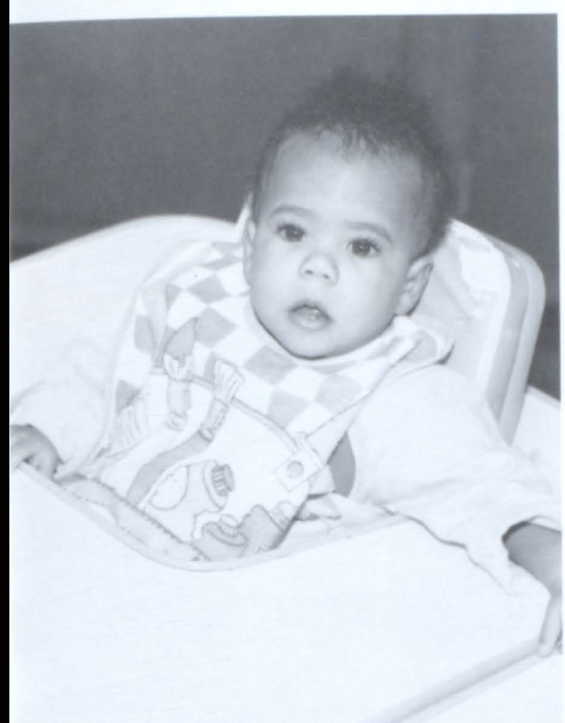

At the center, coordinator Mrs. Mary Jean Meravi and her assistants Fanny Olliveri, Brenda Stevens, Alcira Derevizus, Wilma Rodriguez, and Rosalind Mcmillian, become mother surrogates for the day. Their daily chores consist of feeding the children, teaching them how to feed themselves, changing diapers, occupying the infants time with games, and other experiences that develop their learning skills.

ACTIVITIES

Athenaeum Staff

3rd row: Johann Sanchez. 2nd row: Jackie Pascual, Itza Paredes, Maribel Santiago, Marylyn Montalvo, Jennifer Worthen & Mr. DiGerlando. 1st row: Lorena Vega, Sally Velez, & Laurie Phipps.

A clutter of books, papers and pens surround the rectangular table, while a group of students, perspiring over the fright of a deadline, push themselves further to create a uniquely designed yearbook. Collecting and selecting pictures and data, had been a very time consuming job for the staff, and producing something out of blank carbon paper is an even greater challenge. But the staff has made a great effort to submit all the required information that makes up the school yearbook. The product? Every- thing your eyes can behold!

Left to Right: T.Whitleg, M. Williams, A.Carter, Mr.- O'Shea, L. Willis, C. Scott, G. Hollis, L. Leaf, J. Soulder, T. Bias, T. Morgan, and, T. Atkins.

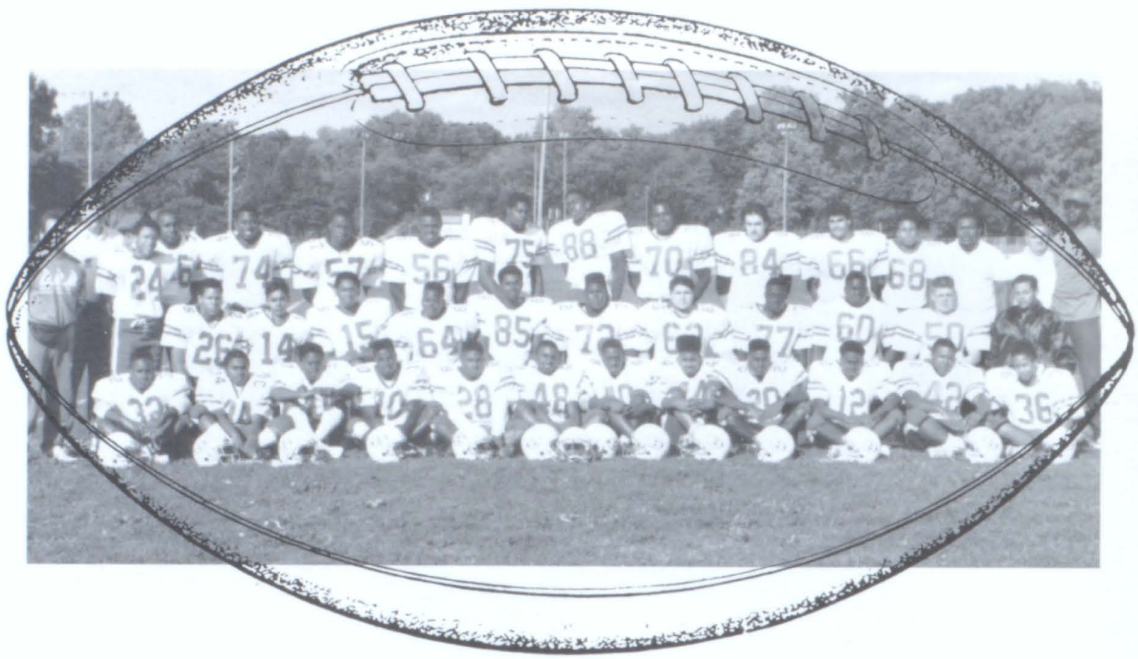

The main promoters of spirit during this 1991-92 year, have been as always the Marching Band and the Color Guards. The basic goal of the band is to build an enthusiasm for music along with musical taste so that performance standards worthy of each participant's abilities can be achieved. The band performs at football games, parades, and concerts throughout the school year. Members of the band who have developed a high level of musical skill are selected to perform special ensembles such as: Blue Jackets, Brass Ensemble, Percussion Ensemble and Woodwind Ensemble. To be a color guard it takes skill, enthusiasm, cooperation, and most of all many hours of practicing routines. Working closely as a team each member received a sense of personal as well as cooperative satisfaction. The squad helps to create color and movement in the marching routines of the Marching Band. Barringer's football team experienced a very difficult, but rewarding season. Their effort and determination helped give the Blue Bears a winning opportunity. Their head coach, R. Dellano encouraged our team to dig deep in the mud, reach for the football, and successfully demonstrate their team work and special abilities. The climax of the season was the 7-0 defeat of mighty East Orange by the Blue Bears, thereby winning back the Old Guard trophy.

Old guard trophy recovered by beating Arch Rival East Orange High by 7-0.

Nicole Hippolewitt

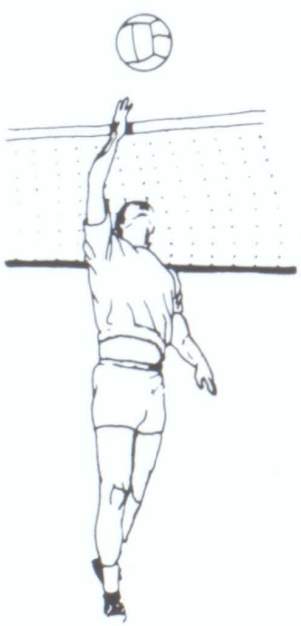

The Barringer Girls Tennis team began this season with a new coach, Kim Grant. Because of Captain Mary Cabral and Co-Captain Nicole Hipplewith, and the team's dedication and enthusiasm, it was a successful year. The team is hopeful that they can accomplish a better record next year.

Volleyball

#13 Connie Perez, #8 Marilyn Montalvo, #14 Adelaida Matos, #12 Vivian Rivera, #11 Eileen Santos, Coach Regina Wright, #16 Rose Vribe, #2 Elsie Romero, #9 Jackie Pascual, #7 Sally Velez, #1 Marisol Colon

In its second year of volleyball, it has become a Blue Bear tradition with a squad of 10 girls. Their first strategies made it difficult for the team to return the ball. The team's plans for next year is to organize a Varsity and Junior Varsity team. Coach Wright's main concern is to have more girls on the team.

Struggling for the championship

Wrestling is one of the most demanding sports an athlete can attempt. Almost every muscle in the body is involved in this sport. The knowledge of many defensive and offensive are needed. Wrestling builds the mind as well as the body. Discipline is the most important factor in their training and matches.

A Remembrance of Robert Talley

He served our country, like he
wanted to do, to defend the great honor
of the Red, White, and Blue.

A friend of us all, he was one of the
best. Taken by the lord, may his
soul now rest.

Giving the memories of having him
by our side, the way he would stand out
with so much pride.

Tell us of someone to be a better friend.
Then we ask this question, why did his
life have to end?

Why Robert Talley? We all need to
know, but as it has been said, when
our time comes we all must go.

Now we join our hearts, to tell this
little story, to remember our friend
who is now in God's glory.
